DIRECTORS' REVIEW

On behalf of the Board of Directors, we are pleased to present the un-audited financial statements of the Company for the six months ended March 31, 2024.

Operational Highlights	March 31, 2024	March 31, 2023
Cane Crushed - M.Ton Sugar Recovery Rate Sugar Produced - M.Ton Cane Crushing Commencement Date Cane Crushing Ending Date Cane Crushing Days	684,186 10.13% 69,369 25/11/2023 04/03/2024 104	590,048 9.79% 57,790 27/11/2022 12/03/2023 106

Overview

The crushing season concluded on 104th day in comparison to previous year's 106 days. As reported in our December 2023 quarter Review Report, sugar sowing was lower than last year; however, lower acreage is supplemented by a better yield of sugarcane per acre.

The minimum support price of sugarcane has been increased by the Punjab Government from Rs. 300 to Rs. 400 per 40 kgs. The current average sugarcane cost is much higher than the indicative support price of Rs. 400 per 40 kgs due to inflationary trends affecting other purchase incidentals.

Alhamdulillah, production is increased by 20% due to regular supply of sugar cane during the crushing period and efficient plant management. This is also supplemented by reasonable increase in price however, price is not increase in proportionate to the costs particularly sugar cane bench mark price.

VIS Credit Rating Company Limited has completed 2nd Annual Review in May 2024 after Credit Rating was first done in May 2022 and reaffirmed our rating at a favorable Long Term and Short Term Credit Rating of A- and A2 respectively.

Future Outlook

The IMF estimated that Pakistan's average inflation will declerate this year from last year's level and further slowdown from FY25 onwards. Positive results are coming as per IMF's estimates, however business houses in Pakistan are looking towards State Bank of Pakistan to bring the policy rate from current 22.00% p.a. to a level which is competitive with the regional markets. Higher interest rates along with unreasonable power rates are making it difficult to compete in the international markets.

Presently Sugar Mills from the platform of All Pakistan Sugar Mills Association are trying to convince the Sugar Advisory Board to allow export of surplus sugar stock; we are hoping that Government of Pakistan will allow export of surplus stock.

Acknowledgement

The Directors are pleased to place on record their appreciation for the devoted and dedicated services of the officers, staff and workers of the Company. We also like to express our thanks to our bankers for their continued support and are also grateful to our shareholders for their confidence in the Management.

On behalf of the Board of Directors

GHULAM AHMED ADAM
CHIEF EXECUTIVE

INDEPENDENT AUDITOR'S REVIEW REPORT

To The Members of Adam Sugar Mills Limited

Report on Review of Interim Financial Statements

Introduction

We have reviewed the accompanying condensed interim statement of financial position of Adam Sugar Mills Limited ("the Company") as at March 31, 2024 and the related condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of changes in equity, and condensed interim statement of cash flows and notes to the financial statements for the six months period then ended (here-inafter referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity.' A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

As per the terms of our engagement, we were only required to review the cumulative figures for the six-month period ended March 31, 2024. Accordingly, we have not reviewed the figures in the condensed interim statement of profit or loss and the condensed interim statement of comprehensive income for the three-month period ended March 31, 2024.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the review resulting in this independent auditors' review report is **Mr. Muhammad Rafiq Dosani**.

GHULAM AHMED ADAM Chief Executive

OMAR G. ADAM Director

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED) FOR THE HALF YEAR ENDED MARCH 31, 2024

1. STATUS AND NATURE OF BUSINESS

Adam Sugar Mills Limited ('the Company') was incorporated in Pakistan on October 19, 1965 in the name of Bahawalnagar Sugar Mills Limited as a public limited company under the provisions of the Companies Act, 1913 (repealed with the enactment of the Companies Ordinance, 1984, and subsequently, the Companies Act, 2017, promulgated in May 2017). In 1985, the name of the Company was changed to Adam Sugar Mills Limited. The shares of the Company are quoted on Pakistan Stock Exchange ("the Exchange"). The Company is principally engaged in the manufacturing and sale of white sugar.

The geographical location and address of Company's business units, including plant are as under:

Head office: The Company's registered office is situated at first floor, Haji Adam Chambers, Altaf Hussain Road, New Challi, Karachi.

Liason office: The liason office is situated at office no. 345-A/1, Gulberg-III, opposite Nisar Art Press, Lahore.

Mill: The Company's plant is located at Chak #4, Fordwah, Chishtian, District Bahawalnagar, Punjab.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan comprise of:

- International Accounting Standard (IAS) 34 'Interim Financial Reporting' issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of, and directives issued under, the Companies Act, 2017.

Where the provisions of, and directives issued under, the Companies Act, 2017 differ with the requirements of IAS 34,the provisions of, and directives issued under, the Companies Act, 2017 have been followed.

These condensed interim financial statements do not include all the information and disclosures required in the audited financial statements, and should be read in conjunction with Company's annual audited financial statements as at September 30, 2023.

2.2 Basis of measurement of items in these condensed interim financial statements

Items included in these condensed interim financial statements have been measured at their historical cost except for freehold land, factory building, non-factory building and plant and machinery which are carried at revalued amounts less accumulated depreciation charged thereon.

2.3 Functional and presentation currency

Items included in these condensed interim financial statements are measured using the currency of the primary economic environment in which the Company operates. These condensed interim financial statements are presented in Pak Rupees which is the Company's functional and presentation currency.

2.4 Judgements and sources of estimation uncertainty

In preparing these condensed interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied in the annual financial statements of the Company as at and for the year ended September 30, 2023.

2.5 Material accounting policies

The material accounting policies adopted in the preparation of these condensed interim financial statements are consistent with those applied in the preparation of the annual audited financial statements of the Company for the year ended September 30, 2023.

13. CONTINGENCIES AND COMMITMENTS

13.1 Contingencies

13.1.1 For the last several years, the Company had been contesting certain legal suits filed against it by its 14 former employees ('the applicants') in the Court of Kaleem Yousuf Authority Payment of Wages Bahawalnagar ('the Authority'). In each of these suits, the applicant had moved an application under section 15(2) of the Payment of Wages Act, 1936 claiming that, for a certain period in the past, he had served the Company as an employee and, upon his separation from the Company, he had not been paid his due compensation, including accrued salary/wages, gratuity, leave encashment, overtime, bonus etc. The aggregate compensation claimed by such applicants amounted to Rs. 42.842 million.

On November 11, 2023, the Authority announced its final verdict in favour of the applicants holding that all the arguments / statements made, and all the documentary evidences produced, by the Company to support its position were found to be contradictory or invalid. In its orders, the Authority also directed the Company to submit with it the aforementioned claim within 30 days from the date of the order. In compliance thereof, the Company duly deposited an amount of Rs. 42.842 million with the Commissioner Workmen's Compensation Bahawalnagar (refer also note 6.1 to these condensed interim financial statements).

Being aggrieved with the aforesaid orders of the Authority, in December 2023, the Company filed appeals under section 17 of the Payment of Wages Act, 1936 in the Court of Learned District & Session Judge / Presiding Officer, Punjab Labour Court No. 8, Bahawalpur ('the Labour Court') wherein, based on various legal grounds, the Company prayed to the Labour Court that the impugned orders passed by the Authority be declared illegal and void and may please be set aside.

As of the reporting date, the said appeals were yet pending for adjudication. However, in the opinion of the Company's legal counsel, the Company has a good arguable case on merit and there is no likelihood of any unfavourable outcome. Accordingly, in these condensed interim financial statements, no provision for the claim of Rs. 42.842 million has been recognized, and the amount already deposited with the Commissioner Workmen's Compensation Bahawalnagar has been accounted for as a deposit.

13.1.2 The status of all other contingent liabilities as reported in note 23 to the Company's annual financial statements for the year ended September 30, 2023 remains the same.

20. RESTATEMENT OF THE CORRESPONDING FIGURES

20.1 Change in accounting policy

During the previous year, the Company changed its accounting policy for determining the cost of inventories pertaining to sugar and its by-products. As per the revised policy, the cost of such inventories is determined by using the First-In, First-Out (FIFO) formula as against the previous policy of using the Weighted average cost formula.

The management believes that the aforementioned new policy provides reliable and more relevant information to users of the financial statements since:

- (a) it more closely aligns the reported cost of sales for a period as well as the reported cost of inventories held at the end of that period with the actual physical flow of inventories. This is because, in practice, it has been observed that, every year, the stocks of sugar and its by-products that were produced in the previous crushing season are sold first, and consequently, the items remaining in inventory at the end of the year are those produced in the most recent crushing season.
- (b) the cost of production fluctuates significantly from one crushing season to the next. This makes the use of the FIFO method even more relevant as, otherwise, the inventories would be measured at average costs and, therefore, may be materially under / over valued.

As also stated in note 19.3 below, the aforesaid change in accounting policy has been accounted for retrospectively in audited financial statements for the year ended September 30, 2023 in accordance with the requirements of the International Accounting Standard (IAS) 8 'Accounting Policies, Changes in Accounting Estimates and Errors' and all the corresponding figures affected thereby have been restated. However, had the said change in accounting policy has been made, the expenses reported in the condensed interim statement of profit or loss would have been (higher) / lower and the profits and earnings per share would have been (lower) / higher by the amounts presented below:

	(Un-audited) March 31, 2024	(Un-audited) March 31, 2023
	Rupe	ees
Cost of sales	(510,059,946)	(200,654,520)
Other operating expenses:		
- Provision for Workers' Welfare Fund	9,687,795	2,678,414
- Provision for Workers' Profit Participation Fund	25,494,198	9,263,786
	35,181,993	11,942,200
	(474,877,953)	(188,712,320)
Profit before taxation		
Taxation - net		
- Current tax	107,803,626	12,380,718
- Deferred tax	(22,916,714)	35,751,679
	84,886,912	48,132,397
	(389,991,041)	(140,579,923)
Profit after taxation		
Earnings per share - basic and diluted	(22.55)	(8.13)

20.2 Correction of prior period errors

20.2.1 In the condensed interim statement of profit or loss for the six-month period ended March 31, 2023, the deferred tax income was, inadvertently, overstated by Rs. 81.699 million, which is analyzed as below:

	Note	Rupees
Effect of:		
- inappropriate revision of the NTR ratio	(i)	82,851,114
- non-recognition of deferred tax asset on the		
provision for WPPF and WWF	(ii)	(4,075,649)
- change in the amount of reversal of deferred tax liability		
arising from incremental depreciation		2,923,202
		81,698,667

Note (i) - Inappropriate revision of the NTR ratio

As per the Accounting Technical Release (ATR) 27 (Revised 2012) issued by the Institute of Chartered Accountants of Pakistan (ICAP), the NTR ratio used in the computation of deferred tax liability / asset should be based on a reasonable estimate of the ratio that an entity's turnover chargeable to tax under the normal provisions of the Income Tax Ordinance, 2001 bears to its total estimated turnover for future years (taking into account the turnover trend for at least the last three years). The objective of this estimation is to ensure the consistent application of a relatively stable NTR ratio which represents a normalized, long-term average ratio of an entity's income subject to NTR to its total income. However, in its condensed interim financial statements for the six-month period ended March 31, 2023, the Company had, inadvetently, changed its NTR ratio from 86.82% (as it was derived for the year ended September 30, 2022 - a normal ratio) to 58.27% (as it was derived based on the turnover for the six-month period ended March 31, 2023 - a distorted ratio caused by a temporary pattern of increase in export sales which was not expected to continue) which resulted in the reduction of deferred tax liability and the recognition of corresponding deferred tax income of Rs. 82.851 million in the condensed interim statement of profit or loss of the Company for the six-month period ended March 31, 2023.

Note (ii) - Non-recognition of deferred tax asset on the provision for WPPF and WWF

As per sections 60A and 60B of the Income Tax Ordinance, 2001, a person is entitled to a deductible allowance for the amount of any Workers' Welfare Fund (WWF) and Workers' Profit Participation Fund (WPPF) paid by the person in a tax year under the respective statues. This provision of law gives rise to a deductible temporary difference in relation to the provisions for WWF and WPPF whereon a deferred tax asset should have been recognized. However, in its previous financial statements, the Company had, inadvertently, not recognized the said deferred tax asset which, in turn, had resulted in the non-recognition of the related deferred income of Rs. 4.076 million in the condensed interim financial statements for the six-month period ended March 31, 2023.

20.2.2 In the condensed interim statement of comprehensive income for the six-month period ended March 31, 2023, the deferred tax charge arising on increase in revaluation surplus was, inadvertently, overstated by Rs. 41.686 million due to the non-application of the NTR ratio. As per the guidance provided in the above-referred ATR 27 issued by the ICAP, the difference between the tax base and the carrying amount of property, plant and equipment should be split into temporary and permanent differences (by applying the NTR ratio to the said total difference) and, accordingly, the deferred tax should be recognized only on the portion representing the temporary difference. However, in its previous financial statements, the Company had, inadvertently, not split the said difference in the tax base and the carrying amount arising from the revaluation surplus and, instead, had measured the corresponding deferred tax liability based on the entire amount of the surplus which, in turn, had resulted in the aforesaid overstatement of the deferred tax charge by Rs. 41.686 million recognized in other comprehensive income for the six-month period ended March 31, 2023.

20.3 Combined effects of restatement of the corresponding figures

In these condensed interim financial statements, the change in accounting policy (referred to in note 19.1 above) as well as the correction of prior period errors (referred to in note 19.2 above) have been accounted for retrospectively in accordance with the requirements of the IAS 8 and all the corresponding figures affected thereby have been restated. The retrospective effects on the corresponding figures presented in these condensed interim financial statements are as follows:

Effects on the statement of profit or loss / statement of comprehensive income

	For the period ended March 31, 2023		
	As previously reported	As restated	Change
		(Rupees)	
Sales revenue - net	2,580,816,944	2,580,816,944	_

Earnings per share - basic and diluted	3.67	7.08	3.41
Increase in other comprehensive income			41,685,883
Increase in total comprehensive income		_	100,567,140

21. OPERATING SEGMENTS

These condensed interim financial statements have been prepared on the basis of single reportable segment.

- (a) Revenue from sale of sugar represents 90% (September 30, 2023: 86.15%) of the total revenue whereas remaining represent revenue from sale of molasses, bagasse and mud.
- (b) 100% (September 30, 2023: 94.43%) gross sales of the Company were made to customers based in Pakistan.
- (c) All non-current assets of the Company at March 31, 2024 and September 30, 2023 were located in Pakistan.

22. FAIR VALUE OF ASSETS AND LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. However, during the period, there were no transfers between the levels of the fair value hierarchy.

Following is the fair value hierarchy of the assets carried at fair value:

	Level 1	Level 2	Level 3	Total
		Rupe	es	
March 31, 2024				
- Freehold land	-	1,429,893,000	-	1,429,893,000
- Factory building	-	215,895,293	-	215,895,293
- Non - factory building	-	76,147,409	-	76,147,409
- Plant and machinery	-	4,569,859,398	-	4,569,859,398
September 30, 2023				
- Freehold land	-	1,429,893,000	-	1,429,893,000
- Factory building	-	226,628,811	-	226,628,811
- Non - factory building	-	78,105,394	-	78,105,394
- Plant and machinery	-	4,665,225,340	-	4,665,225,340

22.1 Valuation techniques and inputs used to determine fair value

The Company obtains independent valuations for its certain classes of property, plant and equipment. The following table summarizes the inputs used in the fair value measurement:

Description	31-Mar-24 Rupees	30-Sep-23 Rupees	Inputs used in fair value measurement
,	Written dowr	value (WDV)	
Freehold land	1,429,893,000	1,429,893,000	The market value of land has been derived using a sales comparison approach. Sale prices of comparable land in close proximity are adjusted for differences in key attributes such as location and size of the property. The most significant input into this valuation approach is price per square foot.
Factory buildings on freehold land	215,895,293	226,628,811	To determine the fair value of the buildings, following significant inputs were used:
Non-factory buildings on freehold land	76,147,409	78,105,394	Covered area of each building physically inspected by the valuer; Complete specification of civil work on each building; Physical condition of each building;
	292,042,702	304,734,205	4) Cost of construction of new similar building; 4)
Plant and machinery	4,569,859,398	4,665,225,340	To determine the fair value of the plant and machinery, following significant inputs are used:

- Cost of acquisition of similar plant and machinery with similar level of technology keeping in view the make, model, capacity, country of origin and other specification.
- Physical condition of the plant and machinery To arrive at commensurable value, the new installed values have been depreciated accordingly, keeping in view the present condition of the plant and machinery.

22.2 Fair value of financial instruments

Financial instruments comprise financial assets and financial liabilities. Fair value of the financial assets and liabilities is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. The Company's financial assets consist of long term deposits, short term investments, trade debts, short term loan to staff, other receivables and cash and bank balances. Its financial liabilities consist of long term finances (including accrued markup), subordinated loan from the Chief Executive, short term borrowings, accrued markup on short term borrowings and trade and other payables. The fair value of above financial assets and liabilities (except non-current portion of long term loans) approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of non-current portion of long term loans is not significantly different from its carrying value as these financial instruments bear interest at floating rates which gets re-priced at regular intervals.

23. GENERAL

23.1 Date of authorization for issue

These condensed interim financial statements were authorized for issue by the Board of Directors of the Company in their meeting held on May 24, 2024.

23.2 Level of rounding

Unless otherwise indicated, all figures in these condensed interim financial statements have been rounded off to the nearest rupee.

GHULAM AHMED ADAM Chief Executive DMAR G. ADAM Director
